**OCTOBER 21<sup>ST</sup>**  
MARKINA-XEMEIN  
Basque Country (Spain)

INTERNATIONAL MEETING  
**DYNAeLAST**  
SUSTAINABLE TRANSPORT'S CHALLENGES & OPPORTUNITIES

Advancing the use of elastomers in demanding dynamic applications

MEETING PROGRAM

- 09:00 **DYNAeLAST International meeting Opening & Inscriptions**
- 09:15 **DYNAeLAST International meeting presentation**  
Jose Javier Egurrola, Technology Director at LEARTIKER Polymers Technology
- 09:30 **“Dealing with rubber unpredictability in the prediction of railway dynamics”** | Joseba Murua, R&D Department’s Dynamics & Rolling team’s leader at CAF
- 10:15 **“Avient Sustainable TPEs 2021 (both Bio & recycled)”** | Elías Ariño, ADTS Engineer at AVIENT
- 11:00 Coffee break & Students’ Posters & Networking
- 11:30 **“Intrinsic Strength and Infinite Life Design for Elastomers”** | Streaming with Will Mars, Founder and President at ENDURICA LLC
- 12:15 **“Working towards a sustainable mobility: a focus on TPEs for structural vibration damping applications”** | Aizeti Burgoa, Researcher at LEARTIKER
- 13:00 **“Innovations in Crack Growth Testing with DMA”** | Brice Taillet, European Sales Manager at METRAVIB
- 13:45 AWARDS and Closing of the 1st DYNAeLAST International meeting
